TECHNICAL DATASHEET

LE NEZ DU VIN

1. Le Nez du Vin

Since 1981, Editions Jean Lenoir has specialized in creating and producing educational object-books intended for learning and recognizing the aromas of wine.
Customs code - **49019900** - educational books

2. Bottles

Our book-objects consist of one or more booklets and a set of aromas contained in glass bottles with a capacity of **4 ml**. The bottles are doubly protected by plastic caps, first by a perforated snap cap serving as a drip stop and then hermetically by a screw cap with a plug.

3. Aromas

3.1 Our aromas (flavoring agents) are **not intended for direct consumption or cosmetic use**. They cannot be added to enhance or modify the smell or taste of food or cosmetic products for the benefit of the consumer. Our aromas are intended solely for olfactory education and may not be used for any other purpose.
Do not ingest. Do not leave within reach of children without supervision.

3.2 Our aromas are composed of flavoring agents diluted in neutral solvents, Mono-Propylene Glycol (MPG), Miglyol, Triacetin and in some rare cases denatured ethanol. **They are manufactured according to the highest standards of safety and quality**. The details of the solvents are provided in Section 3.6.

3.3 Our aromas are exempt from the requirement to provide mandatory information on nutritional value under Regulation (EU) No. 1169/2011 of the European Parliament and of the Council of 25 October 2011 on the provision of food information to consumers (...) (OJ EU No. L304 of 22 November 2011).

3.4 Our aromas meet the requirements of quality specifications. The originals of the quality specifications (SDS) are on file with the seller and can be provided only upon request of the departments authorized to carry out an inspection.

3.5 Our aromas must be kept tightly closed, at a temperature of 5° to 30° C, protected from light.
